

## Product Information

### New Desoldering Irons.

Weller Desoldering irons have been redesigned.

The new 'DSX' series tools are available in two versions, an inline tool with an internal solder reservoir, type DSXV 80 and the DSX 80 with an external solder reservoir.

The DSX series tools feature a novel threadless desoldering nozzle fixture system whereby the nozzle is inserted into the head and locked into place by applying a ¼ turn.

This feature allows the desoldering nozzles to be quickly and easily exchanged and also improves the rate of thermal transfer from the desoldering head to the desoldering nozzle providing the tools with a faster heat up time and recovery rate.

Additionally, because there are no threads in the head to foul, maintenance and costs are reduced.

#### DSX 80 Desoldering Iron Set

80 W, temperature range 50°C – 450°C consists of:

- DSX 80 desoldering iron
- Support AK 20
- Cleaning set
- Nozzles DX 112 + DX 113
- Gasket kit

**Order No. 005 33 138 99**

#### DSXV 80 Inline Desoldering Iron Set

80 W, Temperature range 50°C – 450°C consists of:

- DSXV 80 inline desoldering iron
- Support AK V
- Cleaning set
- Nozzles DX 112 + DX 113
- Gasket kit

**Order No. 005 33 137 99**
