# Flat Suction

The Weller WFE 4S Fume extraction system cleanses work place air in a big way. A powerful, maintenance free turbine provides a continuous fume extraction vacuum flow at a maximum rate of 615m<sup>3</sup>/h. A built-in micro processor controls the adjustable speed of the turbine. The air flow rate is continuously displayed digitally. The micro processor also ensures that operating hours are detected and that the level status of filter absorbency. The 3-stage filter is fitted as standard and is easy to replace, consisting of a fine particle filter (filter mat), compact suspended particle filter and a broad band gas filter. The WFE 4S centralised system is supplied complete with 1 pipe connector (3 optional) and is easily connected to the pipe system. A range of pipe accessories makes it flexible for more than one work place.

Technical Data WFE 4S

Dimensions

(L x W x H): 450mm x 450mm x 650mm

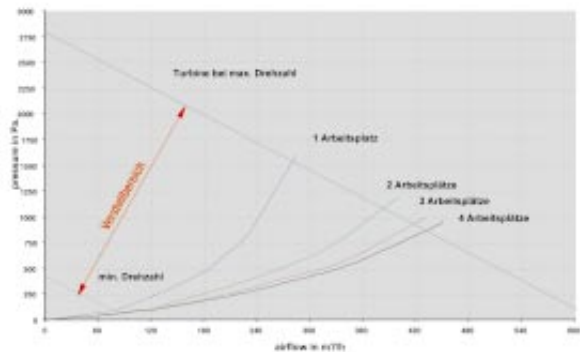

Weight: 40 kg

Max. vacuum: 2800 PA

Max. Convoyance: 615 m<sup>3</sup> / h

Sound level: 51 db(A) of 1m

Filter: Submicron Particulate Gas Filter (S-Class)  
Wide Band Gas Filter  
(50% active-carbon, 50% purafille)
