

Product Information

Weller Cordless Pyropen WP 60

The new Weller WP 60 comes with three different functions in one compact tool: soldering, hot air and torch make this product an universal tool for many applications. Widely available butane gas provides the power as for all Pyropen tools.

The ergonomically designed product is infinitely variable within a temperature range of 500°C – 1300°C. Our WP60 is portable, lightweight and easily refillable.

One gas tank filling lasts for approx. 60 minutes. The integrated gas level window indicates the butane gas level.

Inert hot air prevents other materials from oxidizing and is therefore suitable to handle non-contact solder joints of IC and MOS-LSI boards, solder paste, heat shrink tubes and vinyl chloride boards.

Accessories are different soldering tips, hot gas nozzles, ejector, protection cap and tip holder.

Product Information

Weller Cordless Pyropen WP 60

Functions:

Function as soldering iron
~ 500°C (20 – 60 Watts)

Function as hot blower
~ 650°C

Function as torch
~ 1.300°C

Specifications:

System: Infra-red/ultra-infra-red catalyst combusting butane gas reaction system
Overall length: 186 mm
Weight: 74 g

Order No. WP 60:

005 16 077 99

Optional Parts:

Soldering tip taper
Ø 1 mm
Order No. 005 16 443 99

Soldering tip chisel
2,4 mm
Order No. 005 16 444 99

Soldering tip chisel
5 mm
Order No. 005 16 446 99

Soldering tip spade
2 mm, 45°
Order No. 005 16 445 99

Hot blow tip
Ø 4,7 mm
Order No. 005 16 447 99

Ejector unit

Protective cap
