

### What is RoHS?

(Restriction of certain Hazardous Substances)  
On the 27th January 2003 the European Parliament and Council issued a directive (2002/95/EG) for the restriction of the use of certain hazardous substances in electric and electronic appliances.

### What does it mean for you?

ADDI-DATA has to redesign its products to RoHS-compliant. However, for several products a redesign will not be possible because important components will not be made RoHS-compliant by their manufacturers. We will have to discontinue these products from 30th June 2006 on.

### What do you have to know?

- ⇒ 31th March 2006: „Last order“ for discontinued products
- ⇒ 23th June 2006: Last delivery date for discontinued products
- ⇒ 01st July 2006: Coming in force of the RoHS directive as part of the ElektroG

### Call us for support!

We are at your disposal for all your questions about RoHS. Because we are a manufacturer, our competent team can give you the technical support you need for changing to a follow-up product.

More information about RoHS at [www.addi-data.com](http://www.addi-data.com), Rubrik RoHS/WEEE

### Your technical support form

#### Yes, I wish to have technical support for changing to RoHS-compliant

- Please call me
- Please visit me on the following day: \_\_\_\_\_
- Inform me via e-mail about major changes (e-mail information can be cancelled at any time)

#### Your contact

Company: \_\_\_\_\_

Name: \_\_\_\_\_

Title: \_\_\_\_\_

Department: \_\_\_\_\_

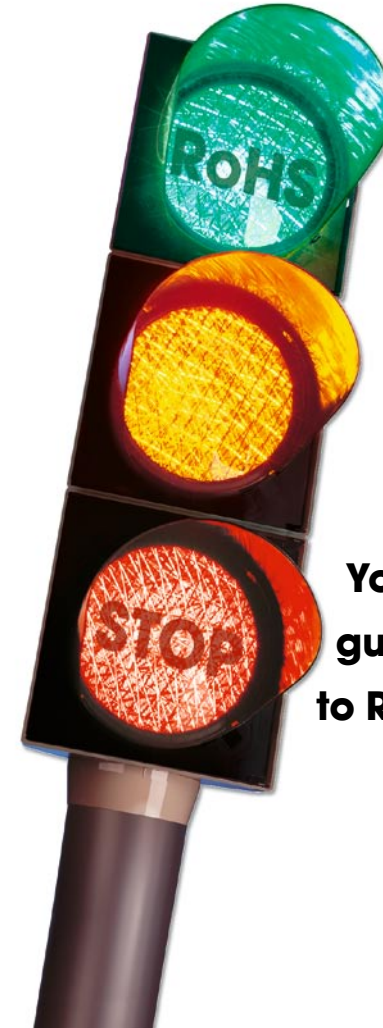

Address: \_\_\_\_\_

Postcode/City: \_\_\_\_\_

Telephone: \_\_\_\_\_

E-mail: \_\_\_\_\_

On 1st Juli, 2006 the RoHS directive comes into force as a part of the Elektro G.
